MEMORANDUM FOR: DIADI-7B2

25X1

ATTENTION :

SUBJECT :

Vulnerability Data on the Regimental Command and
Control Bunker at Aktyubinsk IRBM Complex, USSR

REFERENCE :

Requirement D-020/71
NPIC Project 250995

LOAN COPY
RETURN TO DS
IN 1107, Hq.

1. The regimental command and control bunker at Aktyubinsk IRBM Complex was constructed between mid-1964 and mid-1965. Details of the construction of the bunker, including dimensions and interior partitioning, could be obtained from only [REDACTED]

25X1

2. The bunker is located immediately west of the site support facility at the launch site. It was not present in [REDACTED] and was first observed under construction in [REDACTED]. Construction activity was visible in [REDACTED]. By early [REDACTED] the bunker was being earth covered; it was complete by [REDACTED]. Photography of sufficient scale and interpretability to provide some construction details of the bunker was obtained in [REDACTED] (see attachment A).

25X1

3. The only interior sectioning observed is shown in attachments B and C. The construction material is probably concrete. The bunker was constructed above ground and covered with earth after being completed. The thickness of the earth covering could not be determined.

25X1

4. The completed earth-covered bunker at Aktyubinsk is identical in appearance to the regimental bunker at Taybola IRBM Complex. The bunker at Taybola was not present in [REDACTED]. The area was cleared for construction of the bunker by [REDACTED] and construction was underway during the same time period as at Aktyubinsk. The bunker was complete by [REDACTED]. No construction details or dimensions could be determined for the bunker at the Taybola complex.
